

Middle C
always has its
own special line

Middle C can always be found in the middle of the piano. To find it:

1. Look for the name (brand) of your piano
2. Find the 2 **black keys** closest to the name
3. Find the **white key** to the left of the 2 **black keys**
(see picture above!)

If your piano doesn't have a name (brand), center yourself as best as you can in the middle of your piano, hold your arms out to either side and then bring them together, then follow steps 2 and 3.
